

so bad that the only solution people can see is for the government to take it all over. But a famous man once wrote that there is a simple solution to every human problem, one that is neat, plausible and wrong. This bill is the socialist approach, and all it will do over the long haul is make a bad situation even worse.

#### HEALTH CARE

(Mr. REHBERG asked and was given permission to address the House for 1 minute.)

Mr. REHBERG. Supporters of Speaker PELOSI's 2,000-page government takeover of health care are fast to cite opinion polls in their favor and dismiss anyone who objects if they have legitimate concerns. However, they are much slower to demonstrate the coverage of their convictions by holding public town hall meetings. Americans have a right to be heard, so I have hosted 17 town hall meetings in Montana since August. This weekend in Billings, more than 500 people came to voice their concerns. They weren't there at the request of the insurance industry. Out in rural America, people are speaking out against this bill. I heard them loud and clear at my listening sessions. It is time for the rest of Congress to listen, too. Our authority comes from the people, and we must not ignore them.

#### HEALTH CARE

(Mr. THORNBERRY asked and was given permission to address the House for 1 minute.)

Mr. THORNBERRY. Mr. Speaker, there are people all across this country who are very worried that Congress is about to do something that will do great harm to the quality of their lives and will change America forever. They want us to do something to bring down the cost of health insurance. They want us to do something to make it easier for the uninsured and the hard to insure to get coverage. But, they want no part of a 1,990-page bill with 111 new Federal programs and offices, with new taxes, with Medicare cuts, all at a cost of more than \$1 trillion.

The Democratic majority may be able to twist enough arms to ram this monstrosity through the House, I don't know. But they are leaving the American people behind. This is no way to deal with an issue as important as health care. This bill must be stopped so real, commonsense reform can begin.

#### HEALTH CARE

(Mr. WITTMAN asked and was given permission to address the House for 1 minute.)

Mr. WITTMAN. Mr. Speaker, I rise today to bring the voices of my constituents in Virginia's First District to

the House floor. Here are the words of some of my constituents.

Elizabeth from Williamsburg said, "Please consider small business owners when evaluating the health care proposals. My business ends up with an 8 percent profit margin, so an 8 percent of payroll contribution penalty rate would be significant."

John from Newport News says, "Over the 20 years I managed health care plans for corporations, managing cost increases was paramount not only for my employer, but also for my employees. I know how hard I worked at managing health care expense and have zero confidence that the government can handle the job. The bottom line is that more government involvement in our health care system is not the answer."

Sandra from Seaford said, "I am not in favor of a government-run health care bill. I want to choose my own health insurance. I am opposed to passing a health care bill for the sake of passing a bill. I am opposed to a health care bill that will cost trillions of dollars over the next 10 years, and I am not in favor of being penalized because I do not take part in a government health care bill."

Mr. Speaker, they have said it better than I could.

#### HEALTH CARE

(Mr. LATOURETTE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LATOURETTE. Mr. Speaker, it is nice to see you in the Chair again, and I think you are getting the short straw in your caucus when we give these 1-minute speeches.

It is always nice, Mr. Speaker, when the veil lifts and you finally get to understand something. I have been puzzled since 2007 when the Democrats became the majority party in the House of Representatives, when gas prices went from \$2.22 to \$4.14 over the summer. I was puzzled why they passed such meaningful legislation as National Train Day and so forth and so on.

But two that caught my eye was the bill honoring cats and dogs and then the Monkey Safety Act. I thought they were chastened in this Congress, as we saw the unemployment rate go from this level to this level, and if I had a bigger chart, it could keep on going up.

But again, there is sort of a theme. While people are losing their jobs in America, they again passed the Monkey Safety Act and the Shark Conservation Act. I am thinking to myself, What's their fascination with animals? And it wasn't until I read Speaker PELOSI's government takeover of health care bill, if you go over to page 1,255, it makes veterinary students eligible for up to \$283 million in Federal scholarship and student loan forgiveness.

What's with the animals?

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair asks all Members to heed the gavel.

#### HEALTH CARE

(Mr. SHUSTER asked and was given permission to address the House for 1 minute.)

Mr. SHUSTER. Mr. Speaker, we do need health reform in this country, but not this plan. We need a plan that uses common sense to fix what is broken and keep what is good. Eighty-five percent of Americans have health insurance, and 85 percent of those people are satisfied with what they have.

President Obama has said over and over that no one will lose their insurance if they are happy with it. And just a couple of weeks ago he said that seniors on Medicare Advantage will have to go on regular Medicare, and that means 38,000 seniors in my district will lose their current Medicare plan.

I have many small business owners who have come up to me and said they will be forced to abandon their current plans and go on the public option, not because they want to but because, if they don't, it will hurt their businesses.

Finally, on page 94, it will prohibit families and businesses from changing plans unless the plan has been approved by the health czar. That is not freedom. This is not the plan that America wants. Let's vote this bill down.

#### HEALTH CARE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, in South America there is a tenacious parasitic plant that attaches itself to trees. As it climbs to the top of the tree canopy seeking the light, the plant thrives. But eventually, in the end, it kills the tree.

That is what an unfunded mandate by the Federal Government does to States. Putting more people onto Medicaid arguably is a good thing that takes people off the roles of the uninsured. But the Pelosi health care bill will cost all of the States an added \$34 billion in new burdens.

My Pennsylvania colleagues and I warned our Governor back when we thought people at 133 percent of the poverty level would be eligible for Medicaid. That would have cost the State \$2.2 billion over 10 years. Now we are looking at those at 150 percent of poverty level. That will add 15 million to the Medicaid program nationwide.

Tennessee Democratic Governor Phil Bredesen called it "the mother of all unfunded mandates."

We may soon be saying our prayers for many of our States, when a program intended to help poor women,
